

Model Präsento

Plug-in-Foot- or Scissors-type platform for product-presentation

This platform is constructed only for the use of goods-presentation etc. in stores, showrooms, sales exhibitions... Goods could be stored on the platform in the shop.

Technical Details

Size	: 80 x 160 cm special measures possible
Weight:	: circa 20 kg
Loading-Capacity	: circa 200 daN/80x160 cm

The model with the plug-in-feet could also be used as a stand-up-desk (telescopic feet allow a variable height-adjustment).

Product-Description

Plug-in-Foot- or Scissors-type platform with a 15 mm deck screwed in tightly.

Construction equipped with plug-in-feet-sockets for sticking in feet or with scissors-legs.

Assembly

The Scissors-type platform has an integrated height-adjustment (pressing the grips).

The Plug-in-Foot platform will be equipped in each of the 4 sockets with the stick- or telescopic feet in the wished height > the feet are screwed into the sockets (without any tool).
